

HELIOS

6" STATION BOOT

OPEN CELL POLYURETHANE PADDING is strategically placed throughout the upper for superior comfort and support.

SOFT, FULL-GRAIN GLOVE-LEATHER COLLAR AND FLEX ZONE eliminates chafing and allows for natural movement.

COSMAS[®] RAPIDOFF[™] LACING SYSTEM allows you to get out fast, without the hassles and weight of a lace-in zipper.

FULL-GRAIN, WATER-RESISTANT LEATHER protects your foot.

GORE-TEX[®] liner is durably waterproof, breathable, and engineered to keep feet dry and comfortable while you're on duty.

ANATOMICALLY-SHAPED STEEL SAFETY TOE exceeds all relevant standards for protection.

3D, ANTIMICROBIAL FOOTBEDS WITH MOLDED EVA HEELCUP AND ARCH SUPPORT provides support and comfort. Two sets of footbeds are provided, one thicker, one thinner, allowing you to fine-tune the fit.

INJECTED PU OUTSOLE/MIDSOLE provides comfort, stability, and sure-grip, and the PU midsole won't compress and pack out like EVA. Ergonomic HEELROLL[™] and TOESPRING[™] promote a natural walking motion.

MOLDED HEEL COUNTER cups heel and provides support.

FOR PROFESSIONAL USE ONLY

HELIOS

HIGHLIGHTED FEATURES

Cosmas® RAPIDOFF™ Lacing System

1 Lace the boots normally.

2 Flip the lateral quick release levers to release the laces.

3 Remove the boot.

TESTIMONIALS

This boot has all the comfort features which sold me on your structural boots: fit and foot conformity, along with what I call the Cosmas® walking sole, forcing each step to be a rolling motion from the heel to the toe. I was skeptical about your quick release mechanism for the laces, but once I got used to them, zippers won't be found on my duty boots again. With this addition of the HELIOS, Cosmas® boots will be the only boots on my feet while on duty.

Daren Greening
Denver, CO

These are the most comfortable station shoes I've ever worn. My feet don't hurt after a long shift like they did in my cheap station shoes. I've had them 6 months and they still look new. The sole hasn't broken down and still offers a lot of cushion.

Keith Hackl
Warrensburg, IL

These feel better than my expensive running shoes. My old station shoes fell apart in 6 months, and these are going to last me a lot longer than that. My feet, knees and back don't hurt anymore.

Mike Noonan
Sioux Falls, SD

COSMAS® HISTORY

Cosmas® is located in Montebelluna, Italy, a world-renowned center for technical footwear research, development and manufacturing. Since 1971 Cosmas® has been developing and manufacturing high quality, high performance footwear to meet the needs of mountaineering professionals, firefighters, emergency services personnel, and military special forces.
